raw source code

```java
public PageProperties getProperties() {
    if (hasProperties()) {
         return properties;
     } else {
         return null;
     }
}
```

abstracted code

```
public TYPE_1 METHOD_1 ( ) { if ( METHOD_2 ( ) )
{ return properties ; } else { return null ; } }
```
